

PORTABLE SALT WATER LAMP

No Battery Required · Eco-Friendly Power · Infinite Shelf Life

The Innovation of Survival:

This lamp utilizes advanced magnesium-air fuel cell technology to generate electricity instantly by simply adding salt and water. Unlike traditional lithium battery lights, it has **no expiration date** when stored dry, making it the perfect strategic reserve for government stockpiles, home emergency kits, and outdoor adventures.

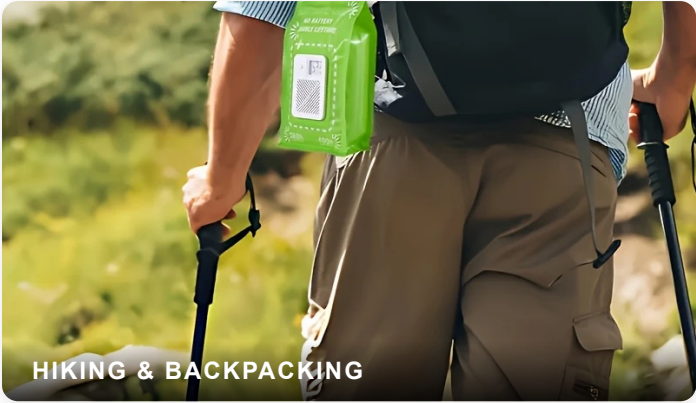

KEY FEATURES & BENEFITS

- 1 Power Anywhere**
No electricity needed. Just add 10g salt + water (seawater/urine works too).
- 2 240H+ Runtime**
One salt packet lasts 10 days continuous or up to 400h intermittent use.
- 3 10-Year Storage**
Store dry indefinitely. No battery leakage, no decay. Always ready.
- 4 Portable & Safe**
Weighs only 0.1kg. Foldable. Safe chemical reaction (Magnesium Oxide byproduct).
- 5 3 Light Modes**
High Brightness (50 Lumens) / SOS Flash / Off Switch.

CE Approved · RoHS Compliant · Eco-Friendly Material · Patent Design

USAGE SCENARIOS

TECHNOLOGY & INSTRUCTIONS

How to Use

- Step 1:** Open the top sealing zippers carefully.
- Step 2:** Add 1 packet of salt (10g) & fill water to the water line.
- Step 3:** Seal the bag securely and shake gently to mix.
- Step 4:** Wait 2 mins, then click the switch to turn on.

**Maintenance Tip: To stop power generation, pour out the liquid and rinse with clean water.*

TECHNICAL SPECIFICATIONS

Product Name	Portable Salt Water LED Lamp
Material	Eco-friendly OPP / PET / ABS
Brightness / Power	50 Lumens / 0.5 Watts
Lighting Time	240h (Continuous) / 400h (Intermittent)
Dimensions / Weight	200 x 100 mm / 0.1 kg
Included Accessories	2 x Salt Packets (10g) + 1 x Lanyard

BOX: 11×11×4 cm	CTN: 100 PCS	SIZE: 52×32.5×24 cm	G.W.: 10 KG
